ABOUT THE COLLEGE

The MMM College of Health Sciences is an education unit of Madras Medical Mission excelling in the conduct of courses in allied health science affiliated to The Tamil Nadu Dr. MGR Medical University. Since 1992, MMM College of Health Sciences with a state of the art facility, conveniently located in the heart of the city, network of accredited programs offered a broad array of choices.

ABOUT THE CONFERENCE

Digital technologies are now driving the future of healthcare as its potential is so huge, more sophisticated and efficient as it has the ability to apply problem-solving techniques that humans could not do alone, thereby supporting doctors and other medical professionals.

Digitization is expected to address gaps and issues in current healthcare delivery models and assure to become a core part of future health systems , helping to revolutionize medicine and healthcare to the benefit of anyone that interacts with it.

The medical education system has to be reformed for medical practitioners to be early adopters of technology and genuinely prepared for the future. In order for health tech platforms to be integrated into traditional healthcare, technologists and domain experts must collaborate closely in order to achieve a patient-centric integrated healthcare system. It is the responsibility of those, developing the solutions to ensure that their design facilitates user adoption.
